LONDON COUNTRY

Allocations of Buses to Garages and Buses to Routes at 3rd April 1976

LONDON OMNIBUS TRACTION SOCIETY

TLB Supplement 5

London Country Bus & Route Allocations

Edition No 4 3rd April 1976

EDITOR'S INTRODUCTION

This is the fourth edition of the revised SUP-5, and as before is devoted entirely to London Country. Once again, the details have been re-arranged in a revised format in that the fleet details are now in Fleet List order which should make the regular up-dating of information easier, and that the route allocation details are altered to make the presentation rather clearer.

SUP5 is designed to be used with the L.O.T.S. monthly newsletter 'THE LONDON BUS' which gives details of all changes in routes and allocations as they occur. Complete revisions will be made from time to time.

COVER PHOTOGRAPH

The date of this publication, 3rd April, was also the date on which the Grays Area services were altered, and several RMCs became spare. This enabled one of the RMCs to move to Chelsham to commence conversion of Route 403. This view, taken at the Chelsham terminus of the 403 on April 8th by PAUL HULYER shows RMC1471 in it's first week of service there. Schedules have not yet been officially converted from RT, but more RMC vehicles are expected at Chelsham following reductions elsewhere on May 15th.

CONTENTS

List of LCBS Routes, with operating garages Page 10

Summary of Scheduled Buses at April 3rd 1976 Page 11

Allocation of buses to routes, in garage code order Pages 12 to 22

EDITOR, Supplementary Publications:

David Stewart, 5, Kathleen Avenue, Wembley, Middlesex, HA0 4JH.

OTHER PUBLICATIONS/SALES

Companion publications have also been published by LOTS -

SUP-4 Allocation of London Transport Buses to Garages and to Routes at March 1st,1976. Price 40p.

SUP-2 Body numbers of LTE and LCBS buses at March 1st,1976. Price 20p.

These, as well as further copies of SUP-5, can be obtained from the Sales Officer, 8, Anerley Station Road, Anerley, LONDON SE20 8PT. If ordering by post, please add 8p per copy (or 10p for two or three) to cover costs of postage and packing.

Fleet List

This Fleet List details the bus and coach fleet of London Country Bus Services Ltd as it stood on April 3rd 1976, and classes are listed in the order given on page 2 - double-deck classes are given first, followed by single-deck classes. Brief details of body and chassis makes are given, together with registration number blocks. Where the regn.nos. do not agree with fleet numbers, they are given individually.

The garage allocation at April 3rd 1976 is given for each vehicle. All are available for passenger service except where a suffix letter is shown, these being:

u = unlicensed bus (vehicle awaiting mechanical or body repair, or in store).
t = driver-trainer bus.
w = withdrawn vehicle awaiting disposal.
b = vehicle borrowed from elsewhere.

Special Note: The code CW is used for buses at Central Works, Tinsley Lane, Crawley.

Summary of Fleet

Double-deckers(inc.coaches) :	428
Single-deckers(inc.coaches) :	760
Buses on hire :	40
TOTAL :	1228

Summary of Fleet Status

Licensed buses and coaches :	1008
Licensed hired buses :	40
Unlicensed and stored buses:	132
Withdrawn stock :	17
Driver-trainer buses :	31
TOTAL :	1228

Nos.1406,1425,1433,1435,1437,1438 are on hire at 3.4.76.

* * * * * * * * * * * *

These hired buses(except ex-LTE) are operated by LCBS, all maintenance being dealt with by their owners. They are,therefore, frequently (virtually weekly) changed around. Full details of the day-to-day movements are given each month in the vehicle movements section of LOTS' newsletter 'The London Bus'.

There have been a large number of LTE Merlins on hire since June 1974, but are being returned now. From the other five operators, a total of 48 different buses has been on hire since hiring began in October 1975.

At 3.4.76, 40 vehicles were on hire , 5 from LTE and 35 from other operators.

(Note: 406F operated on Race Days at Epsom by buses from various ..rages as available)

Route Allocations

All 28 LCBS Garages are listed in alphabetical order of garage code, and first of all, a list of all service numbers operated by that garage is given, followed by the total numbers of buses and coaches allocated to routes on Mons-Fris,Saturdays and Sundays. Types are no longer separated out according to individual route allocation, as the extensive interworking between routes makes this information increasingly meaningless to enthusiasts. Instead, each scheduled type at each garage is blocked together, and the routes on which this type is the prominent allocation are given first. To the right of this is given the routes on which the type operates isolated journeys, and these journeys are itemised individually at the foot of the table.
The note * is used against a route number to show that the garage concerned operates only isolated journeys on that route - the main service being operated by other garages (see route list on page 10).

Example: Garston : By consulting the tables, it can be seen that Route 335 is worked by Garston on Mon-Fri and Saturday only, and works all journeys by MB type, except that an isolated RML journey appears on Mon-Fri, this journey being itemised below.
Route 311 is RML-operated exclusively on Mon-Sats, but MB-operated on Suns, and no other types are scheduled to operate.
'School Special' routes 346C and 385C are all RML, but 346D, while having most journeys operated by RML, has a couple of MBS journeys as well.
Routes 301 and 302, being mainly operated by HH and TG garages, are shown with the note * ,as only one journey on each route is operated by Garston, and these journeys are itemised below.

Note: During periods of vehicle shortage, non-scheduled types do cover for defective types,and at Garston at present, for example, RT and RMC vehicles are covering some RML journeys. The scheduled type, however, is that given in the tables.
It can be assumed by readers that, unless isolated journeys by non-standard types are quoted, all journeys on routes are scheduled to be operated by the predominate type given. Readers are recommended to use these tables in conjunction with the official LCBS official Timetable booklets to make the situation clear.

Variations in workings are noted thus: SDO=Schooldays only; NSD= Not Schooldays; WED/NW= Wednesday/Not Wednesday, etc,etc. Certain terminal names are abbreviated, but these should be obvious.

Late-Running Green-Line coaches are noted as 'LRC' and included with the basic Green Line allocations. Crew Ferry Buses (on Sundays at DG,RG.WR)and Scheduled Duplicate vehicles(GD,LS,NF,SV) are given separately. The Tours Coach Fleet is frequently moved around and the current allocation is given after the main lists(p. 22)

Summary of Scheduled Buses and Coaches at April 3rd, 1976.

DG - Dunton Green

Routes: 402,404,413,421/A,431/A,454/A,471,483,493,704,705.

M-F		Sat	
6SNB, 4LNB, 5BL, 2RF, 13SM	Group allocation on: 402,404,413, 421/A,431/A,454/A,471,483,493, (see below)	4LNB, 5BL, 7SM	Group allocation on: 402,404,413, 421.431,454/A.471,483,493. (see below)
9RP	704,705 (inc. 1 LRC) AW.402.	8RP	704,705.
		Sun	
		8RP	704,705.
		1RP	Crew-Ferry.

Note: 6 Royal Blue Bristol MW6G coaches are currently on hire covering 6 SM duties. In practice all types tend to be completely mixed in operation. For this reason, individual workings by type are not listed below as this tends to be completely meaningless. However, LNB-type is used predominantly on 493 (with associated jnys.on 402,431/A,471), and 404 is always BL/RF(with associated odd jnys.on 402,413,421,431,454/A,471,483).
